stabilizer of all aircraft were painted either red, blue or yellow.

this did not mean that aircraft belonged to individual squadrons, because they were often switched from squadron to squadron. The winterizing of all aircraft started on the 15th of October and was completed by the 15th of November. During the winterizing four or five aircraft were out at all times. Aircraft were dewinterized between 15 March and 15 April. The winterizing and dewinterizing of aircraft was done throughout the entire Polish Air Force at the above mentioned dates. The 56th was up to full person- 25X1 nel strength but understrength about 20 aircraft. 25X1
